

STIRLING BEFORE PYLONS

MEMBERSHIP FORM

The community group *Stirling Before Pylons* was constituted in December 2004 in response to the proposals by Scottish and Southern Energy and Scottish Power to build a huge 400kV power line from Beauly to Denny. The power line would have an irrevocable impact on Scotland's landscape and people.

***Stirling Before Pylons'* objectives are:-**

1. To question the need for the power line and seek alternatives including undergrounding.
2. To minimise the potential health impacts of any route on local people.
3. To minimise the impact of any route on the wellbeing, amenity and security of local communities.
4. To minimise the impact of any route on the landscape including the built and natural heritage.
5. To offer support for the protection of similar areas in other parts of Scotland.
6. To communicate as necessary with outside individuals and bodies in the furtherance of the said objectives.

Stirling Before Pylons is an umbrella group bringing together communities and Community Councils throughout Stirling who are concerned about the proposals. It has successfully campaigned for a Public Inquiry which is due to begin early in 2007. For further information please visit:- www.stirlingbeforepylons.org

If you support the objectives then please join *Stirling Before Pylons*, a healthy membership is important to help argue our case. The membership fee is only £1, but a considerable sum of money needs to be raised to pay for legal representation and expert witnesses, so donations of larger amounts would be appreciated - for more information our treasurer Peter Philips can be contacted on 01786 466730.
